

Journal of the Iranian Chemical Research

Volume 1, Number 2, 2008

CONTENTS

Full Paper

Microwave digestion coupled with spectrophotometry for rapid analysis of the total aluminum in polyaluminum solutions C.Y. Wang, F. Cao, P. Wang, P. Xia, L. Cao (Huzhou, China)	79
Adsorption study of patent blue VF using ginger waste material R. Ahmad, R. Kumar (Aligarh, India)	85
Synthesis and characterization of new heat-resistance polymers based on N-(4-carboxy phenyl) trimellitimide and aromatic diamines Kh. Faghihi, M. Jalalian (Arak, Iran)	95
Iodide selective membrane electrode based on copper (II)-bis-N-phenilsalicylidenaminato complex A. Benvidi, M. Elahizadeh, H.R. Zare, R. Vafazadeh (Yazd, Iran)	103
Vanadium (IV and V) speciation with a catechol derivative and tetrazolium salt P. Racheva, K.B. Gavazov, V.D. Lekova, A.N. Dimitrov (Plovdiv, Bulgaria)	113
<i>p</i> -Toluenesulfonic acid a useful and selective reagent for the oxidation of benzoin to benzil under solvent-free condition N. Noroozi-Pesyan, A.H. Dabbagh (Urmia, Iran)	123
DNA interaction and antimicrobial studies of novel copper (II) complex having ternary Schiff base N. Raman, T. Baskaran, A. Selvan, R. Jeyamurugan (Virudhunagar, India)	129
Chemical and physical analysis of some ground water sample in Al-Quti wells Hodiedah, Yemen A.I. Atta, B.I. Abdul-Razzak (Hodeidah, Yemen)	141
